ITALY'S HIDDEN TREASURES - SEBORGIA
Description

We are taking a journey back in time in a fascinating village, where history is everywhere: Seborga, a self-proclaimed principality in the fifties, lives its special status daily, amidst characteristic alleyways, beautiful period palaces and panoramic views.

What we will see

- Italian Riviera
- Seborga
- A stroll through the village
- Church of San Martino and the Palazzo dei Monaci

What we will do

- We leave Savona and make our way southwards along the splendid **Italian Riviera**, with impressive hills alternating with characteristic village, cliffs and famous beaches.
- We arrive at our destination: the Ligurian village of **Seborga**, perched on the crest of a hill, from which you can enjoy panoramic views of the vegetation-covered mountains and beaches lapped by a turquoise sea.
- We'll stroll through the village alleyways, where the **typical atmosphere of an ancient village** reigns, amidst majestic houses, small gardens and historic monuments.
- What makes Seborga even more fascinating is its unusual **self-proclamation as principality** in the fifties, even going as far as to elect a prince, although with merely symbolic functions.
- The entire life of the village **bears signs of this original status**: along the streets we find cars with a special licence plate next to the official number plate, in the shops we can purchase using "Luigini" coins issued by the principality, and the houses fly the official, blue and white striped flag.
- As we plunge into this haunting atmosphere, we cannot fail to admire the **monuments in the town centre**, such as the splendid Baroque church of San Martino or the Palazzo dei Monaci which, in the 17th century, housed the mint which issued the Luigini coins.
- Comfortable walking shoes are recommended.
- This excursion does not include a guide.

FINALBORGO AND NOLI: A JOURNEY BACK TO THE MIDDLE AGES

Description

Centuries of history and suggestive settings transport us back in time to the Middle Ages as we explore two of Italy's most handsome medieval townships, Finalborgo and Noli.

What we will see

- Finalborgo
- Castel San Giovanni
- Basilica of San Biagio
- Convent of Santa Caterina
- Noli
- The *Torre del Canto* and the *Torre del Comune*
- Medieval walls
- Cathedral of San Paragorio

What we will do

- We leave the port by coach, in the company of our tour rep, and make our way to the first stop on our journey, **Finalborgo**, which is considered one of the most attractive townships in the whole of Italy. The settlement is undoubtedly medieval in origin, although recent research suggests that it was founded several centuries earlier than was previously believed.
- As we stroll through the streets of the old town, the imposing defensive mass of **Castel San Giovanni** and other notable monuments such as the **Basilica of San Biagio**, the **Convent of Santa Caterina** and numerous Renaissance *palazzi* conjure an almost palpable sense of history.
- We leave Finalborgo for another of the Italian Riviera's Medieval gems: the town of **Noli**. This gracious little settlement was home to skilled merchants and courageous navigators who saw it become an independent maritime republic.
- We explore the historic centre on foot, admiring the buildings that recount this fascinating history. There are the **Torre del Canto and the Torre del Comune**, two of the "seventy-two towers of Noli", of which but a few remain. Then there are the surviving **sections of the defensive walls** that once formed an impenetrable barrier around the city, and the 12th-century **Cathedral of San Paragorio**, one of the emblematic examples of Romanesque architecture in Liguria.

PRINCIPALITY OF MONACO FROM THE ANCIENT CITY TO THE ELITE MONTE CARLO

Description

The Principality of Monaco is one of the smallest independent States in the world but despite its size it offers an incredible variety of attractions, all to be discovered: from the ancient city, to the Casinos, to the Formula 1 circuit.

What we will see

- Monaco Ville: Royal Palace square, Cathedral
- Monte Carlo: Casino, boutiques

What we will do

- To get to our destination, we will take the coach along the Fiori motorway, offering a suggestive glimpse of some typical Ligurian villages.
- After crossing the French border, we will arrive in the Principality of Monaco, one of the smallest independent states in the world, its origins and history are indelibly linked to the Grimaldi family, who have ruled here for over 700 years. More specifically, Prince Rainier III who reigned from 1949 to 2005, strongly supported the development of the Principality. Owing to his fairy-tale marriage to the American actress Grace Kelly and the numerous initiatives he supported, the Rainier lineage made this tiny State one of the most frequented by international jet-setters, turning it into a place where numerous world events are held, some of which, delightfully for charity.

- Our tour begins with **Monaco Ville**, the ancient city, which expands over a rock fortified in a very appealing position overlooking the sea. Here, we will have the opportunity to admire the **Royal Palace square** and, dependent on the arrival time, we may witness the changing of the guard.
- The excursion will lead us to the small **Cathedral**, the final resting place of both Prince Rainier and his beloved wife, Princess Grace, who was tragically killed in a car accident that is still shrouded in mystery.
- Late morning, we will make our way, by coach, to the most well known part of the principality, **Monte Carlo**, with its **Casinos**, luxury hotels, sophisticated lifestyle and the streets that, once a year, provide the course for the celebrated Monaco Grand Prix. We can use the free time available as we like, to go on a pleasant walk or shop in the boutiques which offer the most well-known brand labels in the world.

AVIGNON, CITY OF THE POPES
Description

An opportunity not to be missed to explore a UNESCO World Heritage Site, Avignon, "the city of the Popes": a step back into the history of the church and the Papacy, tracing the splendour of the reign of 7 pontiffs who brought prosperity and prominence to Avignon.

What we will see

- Palace of the Popes
- Free time for shopping and exploring the city

What we will do

- We leave the port of Marseille by coach, and head for **Avignon**, a journey that takes about one hour. The city of Avignon is famous for having been the seat of the Papacy from 1309 to 1377, a period known as the Avignon captivity . Pope Clement V transferred the Papal court from Rome to Avignon, from where 7 Popes reigned until 1377 and 2 antipopes stayed on almost until the end of the 14th century, bringing a period of prominence and prosperity to the city.
- Our tour takes us to the **Palace of the Popes** which has been recognised in France as a historic monument since 1840, and as a UNESCO World Heritage Site since 1995. The building, which is both a palace and a fortress, is one of the most extraordinary examples of Gothic architecture of the 14th century. It was built in two phases, by two popes: to the north, the more austere Palais Vieux (Old Palace) was built during the reign of Benedict XII; the Palais Neuf (New Palace), to the south, was built by his successor, Clement VI. Inside, the now-empty galleries, chambers and chapels give an apparent impression of austerity. The frescoes and handwoven tapestries in the bedrooms and the Papal study however, give a better idea of the pomp and splendour of times gone by.
- Before going back to the ship, we have some free time for a walk in the streets of the centre or for shopping.

- This excursion is not recommended for guests with mobility problems.

MARSEILLE AND ITS HIDDEN TREASURES
Description

An excursion for those who want to discover the hidden treasures and secrets of Marseille, a millennial melting pot of people and cultures, a city of indisputable charm and a distinct identity that draws visitors in with its magical atmosphere.

What we will see

- Cathedral of Notre Dame de la Garde and Church of Saint-Laurent
- Le Panier quarter
- Vieille Charité and Cathedral of Sainte Marie Majeure

What we will do

- We leave from the left-hand side of the port and begin our tour of Marseille with a visit to the **Cathedral of Notre-Dame de la Garde** which is at the highest point of the city at an altitude of 162 m above sea level, from where we can see the whole of Marseille laid out before us.
- We will then make our way to the **Church of Saint-Laurent**, a handsome example of Provençal Romanesque architecture, built in pink stone from Couronne, with splendid views of the Old Port.
- It also marks the beginning of the quarter known as **Le Panier** ("the basket"), which is one of the oldest quarters of Marseille and the old heart of the city. It owes its name to the Le Logis du Panier inn, an old establishment dating back to the 17th century. This part of the city is a typical Mediterranean port neighbourhood with the fronts of houses painted in a variety of colours and narrow winding streets. Historically a favoured haunt of sailors, it is now one of Marseille's most characteristic areas.
- Following a visit to **La Vieille Charité** originally an almshouse for the city's poor, now home to a cultural centre and a venue for temporary exhibitions we have the opportunity to try a local speciality, the navette (little boat), a traditional biscuit flavoured with orange blossoms that is baked in the shape of a boat.

BARCINO, THE HIDDEN ROMAN CITY

Description

We will travel back through time and discover the remains of the ancient Roman colony of Barcino, the original heart of what is now Barcelona. Traces of its legacy still remain today in the succession of buildings and architectural structures.

What we will see

- Gothic Quarter
- Plaça Nova
- Via Laietana
- Barcelona History Museum
- Plaça del Rei underground complex

What we will do

- Accompanied by our guide, we will begin our **walking tour of what remains of Barcino**, the Roman town that was the foundation for modern-day Barcelona. As we stroll through the city, traces of this settlement will take us back in time to over two thousand years ago.
- We will venture into the labyrinth of streets that is the **Barrio Gótico** or Gothic Quarter. This district was the heart of political and religious life in the Middle Ages and, even today, its layout is still faithful to the classic Roman *Cardo* and *Decumanus* grid structure.
- In **Plaça Nova**, traces of the Roman settlement abound in a string of architectural delights. We can still see the two semi-circular towers that flanked the gateway to the *Decumanus* road, as well as sections of the city's defence walls and the arch of an aqueduct.
- Amidst temple columns and the remains of walls that peep up every now and then, almost casually incorporated into more modern buildings, we will walk along **Via Laietana**, which takes its name from the first Iberian population to settle in this region. Built in the early 20th century, it has retained the architectural heritage of the Roman walls.
- A must on our tour of the Roman remains is the **Barcelona History Museum, known as MUHBA**, which has preserved and exhibits Barcelona's rich historical heritage, from its Roman origins to the modern day.
- The highlight of the tour is the **Plaça del Rei underground complex** where we can admire the remains of an entire district of the Roman city of Barcino, which spans over 4,000 square metres with its narrow passageways.
- Places on this excursion are limited. We recommend booking early to avoid disappointment.

GAUDÍ'S MASTERPIECES

Description

Barcelona is the city where the great architect Antoni Gaudí produced his most important and famous works which today define the look of the Catalan metropolis. We will visit four of them, all of which are UNESCO World Heritage Sites.

What we will see

- Parc Güell
- Eixample district and Sagrada Família
- La Pedrera
- Casa Batlló
- Plaça de Catalunya and port area

What we will do

- The first destination on our excursion will be the highly original **Parc Güell**, designed by Gaudí at the turn of the last century and created in collaboration with his disciples.
- Entering the park, we will be plunged into a surreal, picturesque setting: fairy-tale buildings, a gigantic salamander decorated with mosaics, forests of columns and a house with spires where the artist lived for twenty years.
- We will return to the coach and a short journey will take us to **Eixample**, the district that is home to the famous **Sagrada Família** church (tour of the exterior). This gigantic work is still under construction decades later, following the plans left by the master architect. Our local guide will point out the most distinctive details of the façade, a demonstration of Gaudí's incredible creativity in its own right.
- Before continuing our tour, we will have some free time to stroll around the district and do a bit of shopping.
- Then we will continue on towards Casa Milà, better known as **La Pedrera** (literally "The Quarry"), one of Gaudí's last works and the greatest example of Catalan modernism. The building, the last civil work designed by the master architect, is a true triumph of curved lines with undulating faces, chimneys that coil around one another and the magnificent wrought iron railings resembling breaking waves.
- The next masterpiece that we will visit on our tour is **Casa Batlló**, a residential building enveloped in a surreal atmosphere. We will admire the façade and roof, covered entirely in glistening multi-coloured scales. The extravagant inventiveness of the shapes is inspired by the legend of Saint George (the patron saint of Catalonia) who fought the dragon, alluded to in the sinuosity of the roof, while the rows of balconies and bone-like structures symbolise the victims.
- On our way back to the ship, we will pass through the commercial heart of the historic centre, the famous **Plaça de Catalunya** and the port area before bringing this magical day to a close.
- Places on this excursion are limited. We recommend booking early to avoid disappointment.

The best of Majorca by helicopter

Description

A spectacular helicopter tour to understand the essence of Palma de Majorca and get a very special, privileged view not only of its historic monuments and luxurious districts, but also to get a panoramic view of the natural surrounding landscape of mountains and tiny, characteristic villages.

What we will see

- Aerial view of the city of Palma
- Gothic Cathedral of Santa Maria
- Palma Port with cruise ships
- Bellver Castle
- Area of Son Vida

- Serra de Tramontana
- Valldemossa

What we will do

- Our helicopter excursion begins from Son Bonet Aerodrome, the international airport in Palma de Majorca.
- As we take off, an enthralling *aerial view of the city of Palma* unfolds beneath us, to reveal its most important monuments, including the **Gothic cathedral of Santa Maria**, commonly known as “la Seu”, famous for its rose window and its immense size. It is approximately 120 metres long, 70 m wide, and covers a surface area of 6,600 m. Its 44 metre-high vaults are some of the highest in the world and make it the second highest Gothic cathedral. The Cathedral was begun in 1230 on the site of the original main mosque and it holds the Royal Chapel, which houses the tombs of King James II and King James III. The west wall of the cathedral was seriously damaged in an earthquake in 1851. In the 20th century, la Seu changed its appearance under the hands of the Modernist Catalan architect Antoni Gaudí, who added the altar canopy.
- We'll also get a good view of the **port of Palma** and the enormous **cruise ships**, which dock in Majorca during their Mediterranean tours.
- As we continue to fly over the area, we get a glimpse of **Bellver Castle**. Originally built as a military fortress to protect the island, the castle is one of the symbols of the city and dominates the entire bay below. It is about 3 kilometres from the historic centre of Palma and over the centuries has been put to various uses. King James II built it as a royal residence. In the 19th century, it became a coin mint.
- It has a rare circular structure for a castle in Europe, three watch towers and a four-storey keep. Inside the castle is a circular parade ground on two floors and a courtyard built over a storage tank. There is a chapel on the second floor.
- Our trip continues until we are flying over the **area of Son Vida**, a luxurious residential area with golf courses, famous hotels and dream villas, as well as elegant shops and clubs where celebrities can often be spotted.
- Properties in this area can even top EUR 2 million in value.
- Our helicopter tour continues towards the spectacular geography of the landscape of **Serra de Tramontana**, which was awarded World Heritage Site status by the UN in 2011.
- Serra de Tramontana stretches for 90 km. It covers 30% of the territory of Majorca and boasts numerous peaks of over 1000 metres.
- During our return journey towards the airport of Son Bonet Aerodrome, we can admire the village of **Valldemossa** to the south. This typical, tiny village lies on the north coast and has a stupendous view over the sea. Chopin and the writer George Sand lived for a long time in this romantic corner of Spain and their house is open to visitors. At the time, George Sand wrote a book (“A Winter in Majorca”) set against the background of this lovely little village and in the summer months each year it holds a festival dedicated to Chopin.
- This excursion depends strictly on the weather conditions.
- In the event of inclement weather the tour may be cancelled at short notice on safety grounds.
- The excursion is not suitable for guests with restricted mobility.
- The crew will provide information in English.

- Children aged 2 to 12 must be accompanied by an adult.
